

### Qualification Committee for Steel Bridge Structure Plants

- The Qualification Committee for Steel Bridge Structure Plants issues Qualification Certificates which are voluntary documents recommending a given plant for the manufacture or performance of repairs and installation of steel bridge structures and a laboratory for the performance of steel bridge structure tests.
- After analysis of the Application and audit the Qualification Certificates for Applicants for the manufacture, performance of repair and installation and for the performance of bridge steel structure tests are issued for the period of 3 years.
- In the middle of the term of Qualification Certificate applicability a follow-up audit is carried out.
- The extension of the Qualification Certificate term is made for the next 3-year period.
- The Committee functions under the [Committee Regulations](#)
- Annex to the Regulations of the Qualification Committee - [Activities of the Qualification Committee in relation to epidemics](#)
